

## Applications

- Sealing
- Gasketing
- EMI/RFI Shielding
- Sound Absorption
- Filtering
- Insulating
- Thermal Mitigation
- Vibration Dampening
- Heat Shielding
- Bonding
- Masking

## Markets Served

- Aerospace
- Appliance
- Cloud Data Center
- Industrial
- Electrical & Electronics
- Healthcare
- Packaging
- Transportation
- Oil, Energy & Gas
- Lighting

## Everseal Gasket - A Division of XMEK

Since 1960, **Everseal** has been a trusted leader in **die-cut solutions and precision converting**. We specialize in transforming your designs into innovative, **high-performance products** that meet the toughest demands.

At Everseal, **customers always come first!**

## The Everseal Advantage:

- **Extensive Capabilities:** Over 25 presses, producing parts from 1/8" in diameter up to 90" long
- **In-House Die Shop:** Precision steel compound tools built and maintained with wire EDM technology, tolerances as tight as  $\pm 0.001$ ", with Steel Rule dies expertly maintained
- **Quality Assurance: ISO 9001:2015** certified for consistent excellence
- **Certified Fabricator: UL listed (QMMY2.E229596)** for trusted compliance
- **Rapid Prototyping:** Advanced dieless cutting technology for fast turnaround
- **Materials Expertise:** XMEK Materials Lab capable of reverse engineering and developing custom compounds tailored to your application

# Materials

Everseal converts a wide range of flexible materials to deliver precise and reliable solutions for sealing, insulating and protective applications at competitive pricing.

## Solid Rubber

- Neoprene
- Nitrile (Buna-N)
- EPDM
- Silicone
- Viton
- Fluorosilicone
- Butyl
- Masticated
- Gum
- SBR
- Epichlorohydrin
- Urethane
- Blends

## Adhesives/Tapes

- Rubber, Acrylic & Silicone
- VHB™ Tapes
- Foam Tapes

## Metals

- Rubber-coated Metal
- Wire Mesh
- <0.010" thick Copper & Aluminum

## Sponge & Foam

- Neoprene
- Nitrile (Buna-N)
- EPDM
- Silicone
- Vinyl-Nitrile
- Polyurethane
- Blends

## Plastics

- Mylar
- Acetate
- Teflon™
- Polyethylene
- Kapton®
- Vinyl
- Styrene
- PVC
- Formex®
- Santoprene™
- Nylon
- Polycarbonates

## Technical Papers

- Fish Paper
- Nomex®
- Vulcanized Fiber
- Vegetable Fiber
- Compressed
- Beater Addition

## Cork Blends

- Cork/Neoprene
- Cork/Nitrile
- Cork/Silicone
- Cellulose Cork
- Straight Cork

## Other Specialty Materials

- Graphite
- Thermal/Gap Pads
- Military Specified Materials
- EMI/RFI Shielding
- Diaphragm/Cloth Inserted
- O-Rings & Molded Parts
